# PanBlast™ Enduro™ And EnduroLite™ Blast Hoses

The PanBlast™ range of EnduroLite™ Blast Hose is designed and manufactured to reduce operator fatigue associated with using Heavy Wall Blast Hoses.

PanBlast™ EnduroLite™ Blast Hose is approx. 30% lighter than PanBlast™ Heavy Wall Blast Hose whilst still maintaining the same internal diameter. The life of EnduroLite™ Blast hose is approximately 80% that of Heavy Wall Blast hose, the economics of its use being obtained by greater productivity due to less operator fatigue.

### PanBlast™ EnduroLite™ Blast Hoses -

- BAC-HB-PB-0005      -BAC-HB-PB-0011
- BAC-HB-PB-0012      -BAC-HB-PB-0013

PanBlast™ EnduroLite™ Hose is manufactured from a black, abrasive resistant, natural rubber liner, a two-ply braided, high tensile, textile cord reinforcement liner and a weather, ozone and abrasive resistant cover. Manufactured from 100% new virgin rubber, the inner liner life will exceed the life of a liner manufactured from recycled rubber by up to two fold.

PanBlast™ EnduroLite™ Hose is static dissipating to reduce the risk of sparks or static shocks being experienced by the operator.

The PanBlast™ range of Enduro™ Blast Hose is manufactured to withstand the most arduous blasting applications.

PanBlast™ Enduro™ Blast Hose is manufactured from a black, abrasive resistant, natural rubber liner, a two-ply braided, high tensile, textile

cord reinforcement liner and a weather, ozone and abrasive resistant cover. Manufactured from 100% new virgin rubber, the inner liner life will exceed the life of a liner manufactured from recycled rubber by up to two fold.

PanBlast™ Enduro™ Blast Hose is static dissipating, to reduce the risk of sparks or static shocks being experienced by the operator.

When fitting couplings or nozzles holders ensure hose ends are cut straight and at 90° to ensure positive seal and increased coupling and nozzle holder life.
